

# Dattu Burle

## Software Engineer

Aiming to solve the unsolved problems in the world.

✉ raja.chanikya.dattu.234@gmail.com

📞 9182822640

📍 KHAMMAM, India

## EDUCATION

### Bachelor of Technology Bennett University

07/2017 – Present

India

### Secondary Education Sri Chaitanya College

06/2015 – 03/2017

India

## PERSONAL PROJECTS

### NeedOn - Android app

- Used ML kit for face Detection to login the app.
- I used java language to code and SQLite Database for storing data.
- Worked on android studio.

### Politics Prediction

- Predicting the winner of the election by taking the twitter comments and will do sentimental analysis.
- Programmed in python and used NLTK Library for text-processing.

### WellCutter

- WellCutter is the Cucumber cutting Machine. It can slice the cucumber in the different sizes according to the users wish. And it will place all cucumber slices a side.
- I used Arduino mega in my project.

### Password Management System - WEB Application

- Online platform where we can store the several passwords of other platforms.
- Used HTML/CSS/Java

### BookAnyWay

- The whole working process of the BookAnyWay is like BookMyShow.
- Done with python language.
- Used GUI for Interface.

## WORK EXPERIENCE

### Software Engineer Microsoft Verzeo Internship

06/2019 – 08/2019

#### Achievements/Tasks

- The task I performed was to implement an image and get the number of the objects inside the image i.e. OBJECT DETECTION.
- Taking a paragraph as the input and getting a one-line summary for that paragraph i.e. Text Summarization.

## SKILL

Python / C /Java

Data Structures and Algorithms

Android Studio

Machine Learning

my SQL / SQ lite

Arduino

## ACHIEVEMENTS

BABSON Entrepreneurship Challenge #1st Runner Up  
(03/2019)

## CERTIFICATES

Microsoft Verzeo Internship certificate  
(06/2019 – 08/2019)

Machine as to identify the number of the objects in the image.

BABSON Entrepreneurship Challenge certificate  
(03/2019)

Startup on Promoting the Art.
